

Training Village

Join Us for the 4th ESTS Training Village

Don't miss the exciting opportunity to participate in the 4th ESTS Training Village, building on the success of previous years!

Set to take place at the exhibition, this event allows our industry partners to showcase their groundbreaking product innovations and technologies:

- Experience hands-on training like never before at our interactive stations where you can practice the latest techniques.
- Seize this chance to enhance your skills and knowledge by seamlessly moving between hands-on stations, all proctored by industry leaders and ESTS members.

Register today to secure your spot, as places are limited! Details below.

AtriCure

AtriCure

Please join our training sessions focused on Cryo Nerve Block therapy for the management of post-operative pain.

Our training team will share procedural techniques, along with best practices to temporarily block pain on different intercostal levels. During each session, you will get the opportunity to discover our new cryoSPHERE + and cryoSPHERE MAX probes and perform a cryo nerve block using state of the

art model.

Each session lasts 15 minutes and can accommodate 2 healthcare professionals.

This year our training village will be held on our booth, we look forward to welcoming you to the AtriCure booth

INTUITIVE

Intuitive

Intuitive Training Village: located within ESTS the training village

We invite to join us for an opportunity to experience the da Vinci technology with hands-on sessions using the latest SimNow. You will be able to practice your skills for basic skills and on the updated lobectomy module, featuring improved lung tissue response and clearer guidance on body cavity limits.

The da Vinci ® lobectomy exercise offers an opportunity to practice on a comprehensive set of anatomy scenarios. The exercise is unguided and allows the surgeon to determine the ideal approach to performing the steps for resection and increase proficiency in this robotic assisted technique.

Each session last 30 minutes for 1 participant.
