Industrial-socket	pc	114,0 €	138,0 €	165,0 €		
Spot lamp	pc	26,0 €	31,0 €	38,0 €		
Spot lamp with arms	pc	31,0 €	38,0 €	45,0 €		
				<b>TOTAL:</b>		

**The prices do not include VAT.**

We would like to inform you that HUNGEXPO Ltd. can fulfil the ordered services on 'Discount price' for orders made 22 days prior to the first set up day. For orders made between the 21st day and 5 days before the first setup day 'Basic price' will be applicable, which is a 20% increase of the 'Discount price'. For orders made 5 days before the first set-up day and on site, 'On-site price' will be applicable, which is a 20% increase of the 'Basic price'.

For orders received on site (during set up and event days), HUNGEXPO Ltd. cannot guarantee the service in time. Please note that on site only bank card payment is possible.

**Please note that the bank transfer fee should be paid by the client.**

We hereby take financial responsibility for the quality and quantity of the equipment hired.

These services ordered will be delivered by a contractor hire by HUNGEXPO Ltd. as a transferred service and the costs will be invoiced accordingly.

**Cancellation policy:**

The Contracting Party can only cancel previously-ordered services validly in writing, sent in a verifiable form to HUNGEXPO. Cancellation shall be effective from the time that the cancellation statement arrives to HUNGEXPO.

Upon cancellation, the Contracting Party shall bear responsibilities for payment, according to the following:

- if the Contracting Party cancels the service order 11 days prior to the official construction period of the Exhibition, it does not have to pay for the service and shall be refunded the amount already paid,
- if the cancellation arrives within 10 days prior to the official construction period of the Exhibition, it shall be required to pay 100% of the fee for the service ordered to Hungexpo.

**Please send back the filled order form scanned to the following email address: [ests@hungexpo.hu](mailto:ests@hungexpo.hu)!**

We have read and understood the **Rules and Regulations of Operation** and we accept them as binding on ourselves.

## ENERGY SUPPLY SERVICES/INFORMATION

We provide discount price for orders purchased 21 days before the opening day of the exhibition according to the table above!

1. In Pavilion A,B,C,D,F,G and in pavilions identified with numbers and for open air locations on one connection point the maximum available power is 50 kW, in pavilions identified with numbers and for open air locations the maximum available power is 50 kW. Higher power demands require individual solutions, which must be reported 4 weeks prior to the starting date of the construction works related to the event. The electric implementation plan of the booth must be attached to the request, and the Event Coordination department will issue a quotation for the establishment of the connection.
2. The electric connection to the booth – from the electric distributor to the circuit breaker of the booth – will be established by the official electric contractor of HUNGEXPO Ltd. at the cost of the customer. In case of ordering connections above 25 kW please ask for proposal. Our offer includes the flat-rate consumption.
3. The exhibitor is responsible for carrying out electric works related to the connection of equipment. Electric works within the booth may only be carried out by licensed contractors or experts.
4. In the event the electric installations or the materials used for installation fail to conform to European Union and Hungarian standards, HUNGEXPO Ltd. May reject the electric connection request of the exhibitor.
5. The connection of electricity and electric main lines to HUNGEXPO Ltd.'s network at the booth is required for all exhibitors who need electricity (lighting of the booth or displayed products, electricity supply to machines and equipment, including refrigerators). This service includes the contact protection measurements as well.
6. The exhibitors must ensure the switching off of the booth lighting and the disconnection of electric equipment and machines in the booth before leaving.
7. For equipment requiring continuous electricity supply during the night (e.g.: refrigerator) the installation of a separate circuit before the main circuit breaker is required.
8. The electricity demand ordered on the Energy Supply Service Order Form must be confirmed on the Connection Permit before the opening of the exhibitions, and can be changed in accordance with the power demand of the electric equipment installed at the booth. The electricity request shall be submitted according to the total electric load occurring at the booth. In the event the electric contractor orders an amount without agreeing with the exhibitor, the difference arising from ordering access capacity – in case of complaint – shall be settled between the contractor and the exhibitor among themselves.
9. HUNGEXPO Ltd. does not bear any responsibilities in case of power outages or power breaks.
10. The exhibitors shall not refuse the installation and routing of the public utility connection lines of neighboring exhibitors within their respective areas.
11. The exhibitors shall be obliged to provide access to the floor outlets, by cutting the floor, structure or any other parts of the booths, or leaving free the connection locations. The exhibitor shall be held responsible for all costs or damages incurring from failure to observe this requirement and from hindering the public utility connection and troubleshooting activities.
12. The basic electric network of Hungexpo Ltd. is a 5-line network in line with the relevant standards. The null and earth wires are separated in accordance with contact protection requirements. In line with the regulations, the switching cabinets are equipped with relays (MSZ 2364).
13. Electricity connections and power is provided by HUNGEXPO Ltd. through an appointed contractor, as intermediated service, and will be invoiced as such.

**According to Hungarian standards the installation of a main circuit breaker and main switch is mandatory for all booth requiring electric connections (even if the booth will operate only one power outlet or lamp).**
